NEXT CLASS STARTS SEPTEMBER 16, 2017

RDAEF2 (EF1 AND 2 ARE INCLUDED TOGETHER)

J Productions Dental Seminars, Inc.

<ul style="list-style-type: none">• Consistent 96-100 % pass rates on the RDAEF2 Boards. We are 35-80% higher than any other program.• Program Director has 42 years experiences teaching DA, RDA, RDAEF and RDH duties as a professor at Sacramento City College.	<ul style="list-style-type: none">• Best teacher to student ratio.• Small class size allows for lots of one-on-one instruction that does not occur in other programs.• Our students complete more than double the number of Board required restorations.	<ul style="list-style-type: none">• Our students complete more than double the number of Board required restorations.• Dedicated faculty that go above and beyond.• State-of-the-art quality and quantity of materials provided.• We have only had 2 failures on the restorative examination in 7 years.	<ul style="list-style-type: none">• Multiple mock boards to prepare for state exams.• Our educational and clinical goals are set to the highest standards of excellence.... No one else even comes close to our standards!
---	--	---	---

RDAEF2 Duties?

(1) Conduct preliminary evaluation of the patient's oral health, including, but not limited to, charting, intraoral and extra-oral evaluation of soft tissue, classifying occlusion, and myofunctional evaluation.

(2) Perform oral health assessments in school-based, community health project settings under the direction of a dentist, registered dental hygienist, or registered dental hygienist in alternative practice.

(3) Cord retraction of gingiva for impression procedures.

(4) Size and fit endodontic master points and accessory points.

(5) Cement endodontic master points and accessory points.

(6) Take final impressions for permanent indirect restorations.

(7) Take final impressions for tooth-borne removable prosthesis.

(8) Polish and contour existing amalgam restorations.

(9) Place, contour, finish, and adjust all direct restorations.

(10) Adjust and cement permanent indirect restorations.

(11) Other procedures authorized by regulations adopted by the board.

(c) *All procedures required to be performed under direct supervision shall be checked and approved by the supervising licensed dentist prior to the patient's dismissal from the office.*

Course Lecture Format

98% of all lectures are provided in an on-line, virtual classroom. That gives you the opportunity to listen to the lectures on your own timeframe. This will also reduce the number of face-to-face meeting in Sacramento and will help reduce travel costs and program length AND everyone loves it!... In addition, we average 99 % pass rates on the written RDAEF state examination because our students review all lectures and tests online. Other programs average over a 45% FAIL rate on the same examination.

What is included in the tuition?

We will of course be providing all instruction and instructional materials, handouts, etc. We will also be providing all consumable and restorative dental materials and some of the instruments that will not be utilized on the RDAEF boards, such as; rubber dam instruments, bench mounts, endodontic equipment, amalgamators, etc. You will be required to place and finish glass ionomer, composite and amalgams. restorations.

We are pleased to announce that our EF2 course continues to set the standards for dental education. We have had outstanding pass rates on the state dental boards for EF2s averaging 96-100% .

The supervising employer dentists are thrilled at the performance of our graduates. Their contributions to the individual practices has been outstanding.

NEXT CLASS STARTS SEPTEMBER 16, 2017

RDAEF2

What is needed to apply for the class ?

- Proof of current RDA license with sealant certification or RDAEF1 license
- Proof of Malpractice insurance (we have a vendor that is inexpensive if you wish)
- A willingness to work hard and give up some weekends

Will I need a sponsoring dentist ?

No, If you are enrolling in the course for NEW RDAEFs, you will need patients prepared for 5 posterior crowns, but clinical faculty provide local anesthesia during the program so that you do not need a dentist present at the course.

NOTE: When you take your state boards for the cord retraction and final impression portion of the test, you will have to provide a dentist who can give local anesthesia. That is a dental board requirement, not ours.

How will the course be offered?

We typically offer the course two weekends per month. That would include both Saturday and Sunday. In addition, we will teach the majority of the didactic (lecture) in a virtual classroom online.

Do I need to be an EF1 first?

No, the course is designed for both RDA and EF1. If you are currently a RDA the functions of the EF1 are included in the program.

What are the Course Fees?

Course fees can be paid all at once or utilize the following payment plan.

The course fees for currently licensed

RDAEF1 Section 1- \$ 5500

Section 2- \$ 5500

Section 3- \$ 5500

Section 4 - \$ 4500

Mandatory Instrument Issue: \$3000

Mandatory lighted loupes.. we have a great vendor

The course fees for new RDAEF students

Section 1- \$ 5500

Section 2- \$ 5500

Section 3- \$ 5500

Section 4- \$ 5500

Mandatory Instrument Issue: \$3000

Optional Payment Plan

SPECIAL DEPOSIT OF \$1000 FOR GUARANTEED ENROLLMENT

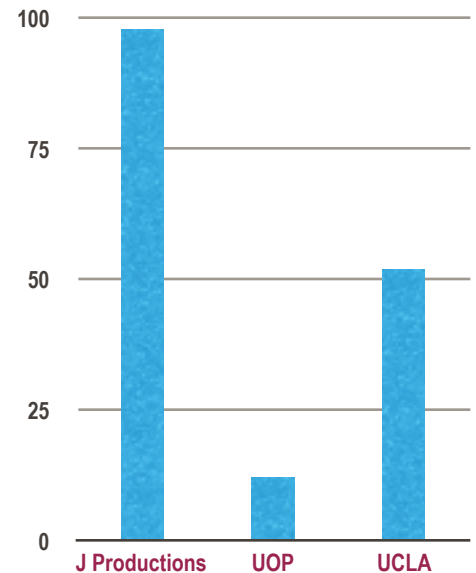

DUE NO LATER THAN MARCH 15th.

May 1st Remaining instrument issue \$2000

July 15 1st tuition installment \$5500

Oct. 15 2nd tuition installment \$5500

Jan. 15 3rd tuition installment \$5500

The State Board results show what a quality program J Productions Dental Seminars, Inc. offers.

RDAEF²

Will there be homework assignments on the procedures?

Once you have learned the correct way to perform the various restorations in class, we will be asking you to practice between sessions and return with your completed assignments for our evaluation.

Is there any financial aid available for the course.

Because this is considered a licensure course federally-backed student loans are not available.

Make an investment in yourself!

We suggest the following:

- Speak to your employer for assistance
- Consider a small personal loan at a bank or credit union
- Ask a family member to co-sign a loan
- Use equity in a house or car
- Use credit cards and our 4 payment plan.

When are payments due for the next course?

A Mandatory Instrument Issue fee of \$3000 and section one fee of \$6000 are required at the time of acceptance for enrollment.

Payment for each additional section will be required at specific dates.

When will the next EF2 course begin?

September 16, 2017

Magnification loupes of 3.5 or higher are required for class. We are working with several companies that offers students discounts payment plans, and good service and products.

What is needed to participate in the virtual classroom?

You will need the following:

- A computer with a sound card and speakers (Most computers have both items)
- High-speed internet connection
- To be comfortable with the use of the internet and a computer.

Ask your kids... they can help!

How can I be considered for enrollment?

Complete all the information on the last page and fax it back to us.

Why do you think you have such consistently high pass rates on the state boards and great responses from employer dentists?

Education is a passion for us! We have been helping dental professionals achieve their professional goals for 44 years. We have a great reputation for quality courses because we believe a piece of us goes with you into the state examinations and into your practice....

And of course, we have great students!

Are there any hidden costs within the program?

No. We provide you with a list of items to bring from your office, but all other materials and supplies including the cast crowns for the crown adjustment function are included.

Why do you require loupes?

Simply put... you will be amazed at the difference it makes in the quality of your restorations!

Are there benefits to having all the lectures on-line.

First and foremost... the students love this format... the lectures are recorded so you can review anytime you wish. It also provides a great review for your state written boards. We have the highest pass rates by far on both the written and practical boards!!!

In addition, it saves a lot of travel costs because you don't need to travel to class as often.

Please note...

Dental Board of California has added a requirement that each student must complete 20 restorations on patients prior to the completion of the program. This requirement will be completed in your clinic or office, with specific criteria and evaluation from our program faculty.
